Caution

It is essential to work to the stated tension, and we cannot accept responsibility for the finished product if any yarn other than the specified yarn is used.

Quantities of yarn are approximate as they are based on average requirements.

Although every effort is made to ensure that the colours on this leaflet are true representations of their respective yarns, they may not always exactly match due to technical restrictions of printing processes.

We recommend Milward or Susan Bates knitting needles.

Important

It is important to check your tension before starting your garment. If there are too many stitches to 10 cm, your tension is tight and you should change to a larger size needle. If there are too few, your tension is loose and you should change to a smaller size needle.

SWISS DARNING

Use a tapestry needle and appropriate colour. Bring needle up through centre of stitch from

back of work, insert from right to left behind stitch immediately above (A) then down through centre of original stitch and out through centre of next stitch to left (B).

Motif Knitting

For working blocks of two or more colours, work in rows, joining in colours at appropriate point. Do not carry colours across wrong side of work, but link 2 colours by twisting round each other where they meet on wrong side to avoid a hole (see diagram).

For easier motif knitting we recommend Susan Bates Yarn Bobs. These bobbins are easy to handle and several can be used at a time as they hang at the back of the work keeping colours free from tangles. Wind length of colour round each bobbin and join in at appropriate points on the row in the usual way.

Fairytale 3 ply – Do not press.

Baby Pure Wool 3 ply – With wrong side of work facing, block each piece by pinning out round edges, and omitting ribbing, press lightly following instructions on the ball band.

HANDY HINTS

When marking position of buttons on Button Border with pins, mark first and last buttons as specified, then count the number of rows in between. Divide these rows as evenly as possible for the remaining buttons required and place pins accordingly, then make sure that the same number of rows are worked on the Buttonhole Border between each buttonhole placing.

Do not dry handknits in harsh sunlight as fading or yellowing may occur.
